

SQUIZKIDS

FOR SCHOOLS

WELCOME TO SQUIZ KIDS FOR SCHOOLS

We connect news and current and affairs to the curriculum, and give your teachers the tools to teach kids to be critical consumers of media.

4 key reasons your school should be a Squiz Kids school:

1 Media Literacy - We give teachers the tools to help students become critical thinkers, and develop a strong foundation of knowledge about the world around them.

2 Differentiation and engagement - We put daily differentiated resources at your fingertips, and use kid-friendly news and current affairs to teach the Australian curriculum.

3 Academic improvement across multiple measures - Our pilot program saw teachers reporting student improvement after only 8 weeks in multiple areas—even factoring in remote learning!

4 Screen-free listening skills - Kids are on screens all the time, and speaking and listening skills are suffering. We use podcasts and accompanying activities to get Aussie kids listening, thinking, and talking about the world around them.

96% of primary teachers want to teach media literacy, but don't have the resources.

LET'S DO THIS

PRICE?

Squiz Kids for Schools is charged per classroom and is an average of \$9 per student per annum.

HOW DO I SIGN MY TEACHERS UP?

[Using this link](#), your school administrator can register an account and give access to your teachers.

OTHER QUESTIONS?

We're really keen to chat. Contact Amanda Bower, Head of Squiz Kids for Schools at amanda@thesquiz.com.au or 0424 795 146.

"The ready-made differentiated materials are a godsend to teachers. We have a class with multiple abilities and the time saved is amazing."

Squiz Kids Pilot Teacher

After a 6 week trial, all teachers reported an improvement in student knowledge, literacy, speaking and listening skills, confidence and critical thinking.
