

EASTER

Name: _____ Date: / /

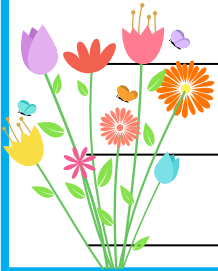

A Season for Celebration

1. What does the egg symbolise in Easter celebrations? (there is more than one correct answer)

- An end to fasting after forty days of Lent.
- Chickens that have a very strange diet.
- New life coming into the world.
- Nothing, but they taste great.

2. What is the name of the Spring goddess mentioned in the podcast, and what does she represent?

3. Traditionally, crosses, eggs and bunnies are symbols of Easter. If you could create a new symbol for Easter, what would it be and why? Design your symbol below and then write a few sentences about it.

3. This opinion appeared in *The Guardian* newspaper:

“ The link between Easter and chocolate is weak at best. In fact, to be perfectly honest, there really isn't one. It is thoroughly unlikely that Jesus ever tasted chocolate, and the pagan festival of Eostre was a celebration of Spring. Besides, Easter egg chocolate is always the worst chocolate in town. ”

If you could respond to the author, what would you say about the role of chocolate in Easter celebrations today?

4. In Australia, we have the Easter Bilby because rabbits are considered a pest in many parts of the country (sorry, Easter Bunny!). Create a comic-style story that explains how the Easter Bilby started delivering eggs in Australia, using illustrations and simple text.

The comic page features five panels arranged in two rows. The top row consists of three panels, and the bottom row consists of two panels. The first panel in the top row is decorated with a starburst effect, indicating an action or event. The last panel in the bottom row is decorated with several stars and motion lines, suggesting a dynamic or exciting conclusion to the story.
