1 Space

Rules

- Pick up a one, two or three space card. (It's your choice)
- Read the sentence aloud.
- Tell your playing partners where the punctuation goes.
- If you are correct, move ahead the number of spaces on the card. If not, stay put until your next turn.
- You must land exactly on the end square to win.

The USA's election was won by Donald Trump.

The world's oldest gaming vlogger, an 88-year-old grandpa, got a Guinness World Record.

Within a month, two huge hurricanes hit Florida.

Two Spaces

In Australia, Taylor Swift's Eras Tour caused a ticketing meltdown.

The rocket ship 'Odie' launched from Florida, aiming to be the first American spacecraft to land on the Moon in fifty years.

English darts player Darren Webster accused his Dutch rival of farting during a Super Series match.

Big countries like Indonesia, South Africa, the UK, and the USA held elections this year.

Australia's favorite pandas, Wang Wang and Fu Ni, are being replaced by a new pair at Adelaide Zoo.

Katherine Bennell-Pegg, 38, is Australia's first astronaut and a mother of two.

The last elephants left Taronga Zoo for a safari park in South Australia.

Grazer, a mother bear, won Fat Bear Week again.

Three Spaces

The 2024 NRL season kicked off in Las Vegas, a bold move that showcased the league's ambitions and talents.

Although they faced tough competition, the Penrith Panthers claimed another NRL Premiership.

While breakdancing has long been a niche sport, Raygun's viral routine brought it into the spotlight.

Because of disruptions in the global supply chain, Australians experienced shortages of beetroot and fizzy drinks.

After years of planning, New Zealand opened its first kiwi hospital, a significant step toward protecting its iconic bird from extinction.

Although space exploration often faces challenges, astronauts Sunni and Butch managed technical difficulties on the ISS, showcasing their resilience.

As fire ants marched further south, ecologists raised alarms about the invasive species, which poses a serious threat to local ecosystems.

While living in a replica Mars habitat, NASA volunteers experienced conditions that mimic long-term space travel, helping scientists prepare for the future.

Because of her groundbreaking achievements, Katherine Bennell-Pegg became Australia's first astronaut, inspiring young Australians to pursue STEM careers.
